PBS GROUP's jet engine became the 2024 Product of the Year in the field of high-tech aerospace technology

Prague, 16th January 2025 – **PBS GROUP** has been awarded the prestigious **2024 Product of the Year award in the field of high aerospace technology** by the magazine **Review for the defence and security industry (Review pro obranný a bezpečnostní průmysl)**. This significant award was given to the **PBS TJ150 jet engine, which is designed for unmanned aerial applications.**

Pavel Čechal, Executive Director of PBS GROUP, received the award at the Gala Meeting of the Representative Editorial Board of the Review for Defence and Security Industry. "We greatly value this award. It is a confirmation for us that our efforts and many years of experience in the field of development and production of aerospace technologies bring real results. The PBS TJ150 turbojet engine, which has been named Product of the Year 2024, is a symbol of innovation, reliability and strategic approach, which make us one of the leaders in the industry," said Pavel Čechal

PBS TJ150: the unique engine with global reach

The PBS TJ150 jet engine is designed for a wide range of applications from target practice and drones to other unmanned applications. "With its high thrust, reliability, low weight and modification options, it meets the requirements of even the most demanding customers. It is the result of more than 50 years of PBS Group's tradition in the aerospace industry and finds its application even in the demanding conditions of the defence and security sector," Čechal added.

The quarterly Review for the Defence and Security Industry is a media platform of the Association of the Defence and Security Industry of the Czech Republic (AOBP ČR). The annual representative editorial board of the magazine traditionally announces the award-winning personalities, companies and products of the Czech defence and security industry. "The aim of the Product of the Year award is to highlight cutting-edge technologies that bring added value not only to their users but also to the entire industry. The PBS TJ150 is a perfect example of Czech innovation that deserves global attention," said editor-in-chief Miloš Soukup.

Thanks to a number of Czech and international certifications, years of experience and the ability to adapt products to individual customer needs, PBS GROUP confirms its position as a leader on global markets and remains synonymous with quality and innovation.
